PROFESSIONAL PROFILE

Tech-savvy Computer Engineering student (Class of 2026) at the Polytechnic University of the Philippines with hands-on internship experience in UI/UX design at a government science agency and in administrative and technical support at an IT training center. Skilled at gathering requirements from stakeholders, documenting system designs, and keeping projects organized and on schedule. Holds a foundation in computer networking, Python, and web technologies, and brings a reliable, detail-oriented work ethic to fast-paced, team-based environments.

CORE COMPETENCIES

Technical: HTML, CSS, Python (basics), UI/UX design, MS Office, web-based tools, basic system administration, networking fundamentals (Cisco CCNA), data entry, digital documentation, data dashboards (Dash and Plotly)

Professional: Stakeholder communication, requirements gathering, project documentation, scheduling and coordination, teamwork, problem-solving, time management

Personal: Fast learner, highly adaptable to new software systems and workflows, calm and solution-focused under pressure, reliable and punctual

WORK EXPERIENCE

UI/UX Designer (OJT / Internship) *July 2025 – September 2025*

Department of Science and Technology (DOST) – Project LODI

- Communicated regularly with project stakeholders to gather requirements and provide progress updates.
- Documented system design specifications and maintained organized project files for easy team access.
- Applied UI/UX design principles to support the project's system design work.
- Demonstrated attention to detail and consistently met deadlines in a professional setting.

Assistant (OJT / Internship) *July 2024 – September 2024*

Nexus IT Training Center

- Provided administrative and technical assistance to the daily operations of the training center.
- Handled scheduling, documentation, and coordination tasks efficiently.
- Demonstrated reliability, punctuality, and a professional attitude throughout the internship.

EDUCATION

Bachelor of Science in Computer Engineering *2022 – 2026*

Polytechnic University of the Philippines – Sta. Mesa

- Coursework and training in programming, computer networking, and digital systems.
- Completed two industry internships (2024 and 2025) alongside academic studies.

Senior High School – STEM Track *2020 – 2022*

Polytechnic University of the Philippines – Sta. Mesa

ACADEMIC PROJECTS

- AnemiAlert: A Portable Assistive Device for Non-Invasive Anemia Screening in Barangay Health Centers**
Developed as a group thesis project to assist Barangay Health Professionals in preliminary anemia screening using a portable ESP32-S3-based device, a mobile application, and machine-learning-supported analysis. Contributed to application development, system integration, documentation, testing, and project coordination using React Native/Expo, Firebase, Python, TensorFlow, ESP32-S3, and MAX30102.
- Data Structures and Algorithms – Group Portfolio**
Developed a collection of programming projects demonstrating fundamental data structures and algorithms, including searching, sorting, queues, hash tables, graphs, and expression conversion. Contributed to the

development, organization, documentation, and presentation of the group's projects using Python and web technologies.

- **Contact Tracing System**

Developed a desktop-based contact tracing application with a graphical user interface for recording and searching contact information. Implemented object-oriented programming concepts and CSV-based data storage using Python and Tkinter.

- **Thesis Management System**

Developed a web application designed to digitize and simplify the thesis management process, archiving, guiding students and faculty from proposal submission to final defense through a structured, role-based workflow.

CERTIFICATIONS & TRAINING

- Cisco CCNA: Introduction to Networks (Verified)
- DataCamp: Introduction to Python
- DataCamp: Building Dashboards with Dash and Plotly
- Computer Literacy Program – St. Therese School of Technology Taguig & Booknet Training Services

ACHIEVEMENTS & AFFILIATIONS

- **Consistent Honor Student – Senior High School**

Recognized as a consistent honor student throughout Senior High School, demonstrating academic consistency, discipline, and commitment to academic responsibilities.

- **Treasurer – College Organization/Class | 2 Years**

Managed financial records, monitored project-related expenses, and assisted with budget planning and financial coordination for college activities and projects.

- **Thesis Project Leader – AnemiAlert**

Led a five-member thesis team in the development of a portable assistive device for non-invasive anemia screening. Coordinated tasks, monitored project progress and deadlines, contributed to system development and documentation, and helped organize testing and project presentations.

- **Computer Engineering Student – Polytechnic University of the Philippines**

Completed academic coursework and hands-on projects in programming, computer networking, software development, and digital systems.
