Dear Hiring Manager,

I am writing to express my interest in joining your organization in an entry-level position that aligns with my background in Computer Engineering. As a recent Bachelor of Science in Computer Engineering graduate from the Polytechnic University of the Philippines, I am eager to apply my technical knowledge, problem-solving abilities, and strong work ethic in a dynamic and growth-oriented environment.

Throughout my academic journey, I developed a solid foundation in computer systems, programming, data analysis, system administration, and technical documentation. My coursework and hands-on projects enhanced my analytical thinking, attention to detail, and ability to develop practical solutions to technical challenges. I am committed to continuous learning and enjoy adapting to new technologies and industry best practices.

During my internship with the Department of Science and Technology (DOST) under Project LODI, I collaborated with multidisciplinary teams to design user interfaces, create technical documentation, and translate project requirements into effective solutions. This experience strengthened my communication skills, teamwork, and ability to work in a fast-paced professional environment. Additionally, my internship as a Training Assistant at Nexus IT Training Center allowed me to develop strong organizational, administrative, and customer service skills while supporting daily operations with accuracy and professionalism.

I have experience working with Python, HTML, CSS, Microsoft Office, and various digital tools. I have also completed certifications in Python, Windows Server Administration, Cisco CCNA: Introduction to Networks, Huawei GaussDB, Big Data Fundamentals with PySpark, and Dashboard Development using Dash and Plotly. These learning experiences have broadened my technical knowledge and strengthened my ability to quickly adapt to new software, systems, and technologies.

I am recognized as a reliable, detail-oriented, and highly motivated individual who enjoys solving problems and collaborating with others to achieve shared goals. I am excited about the opportunity to contribute my technical skills while continuing to grow professionally within your organization.

Thank you for taking the time to review my application. I would welcome the opportunity to discuss how my education, technical background, and enthusiasm can contribute to your team. I look forward to the opportunity to speak with you.

Sincerely,

Zemerelin Iris M. Membrere
